

Administering Medication Policy

Parents or careers must indicate on the online booking form of any medical conditions.

Staff members are not responsible for administering any medication to a participant whilst with Multi-Sports. Ideally participants should take their medication before arriving. If this is not possible, participants will be encouraged to take personal responsibility for their medication, where this is appropriate.

If any medication has to be taken with assistance or carried around with the child by a member staff, the Head Coach will speak with the parents or careers and come to an agreement to how Multi-Sports can support.

If participants can carry their own medication (eg asthma inhalers), a staff member will offer to keep the medication safe until it is required. Inhalers must be labelled with the participant's name.
